Pet  
Assisted  
Therapy  
Services

Furry Friends Pet Assisted Therapy Services' mission is to consistently facilitate the delivery of the love and affection of our volunteers and their pets. We enhance the lives and reopen the closed emotional doors of people with special needs.

## **We're Licking Loneliness!**

Dear Prospective Furry Friends Volunteer,

On behalf of the nearly 500 volunteers that make up Furry Friends - Pet Assisted Therapy Services, I want to thank you for your interest in joining our organization and am looking forward to seeing you share the love of your pet with others. I can personally tell you that you are about to join an organization that will allow you to make a real difference in someone's life. It will be something that you can stand proud about, because you will be one of the few in our society that really does give back to others in need.

Furry Friends is a volunteer organization. We are financed solely by private and grant donations. Currently, we service approximately 50 facilities in Santa Clara and San Mateo Counties that include the Santa Clara County Children's Shelter, convalescent hospitals, nursing homes, hospitals, senior day care centers, and Santa Clara County Juvenile Hall. With this letter I have enclosed all the necessary documents needed for you to complete your application package and become a Furry Friends volunteer. If you will be joining with someone else (spouse, friend, child, etc.), please duplicate the attached documents (except Vaccination/Fecal Record and Veterinary Pet Evaluation Form) and complete them separately. Our application materials are designed for one human volunteer only. The same goes with our pet related forms (Vaccination/Fecal Record and Veterinary Pet Evaluation Form) when applying with multiple animals.

We have enclosed the following:

1. Frequently Asked Questions About Furry Friends
2. List of Sites that Furry Friends Visits – check web site for latest info
3. Liability Release Form \*
4. Volunteer Registration Application \*
5. Vaccination/Fecal Record \*
6. Veterinary Pet Evaluation Form \*
7. Pet Behavior Etiquette Class Aggression Screen \*
8. New Volunteer Application Checklist

Once we have received \* **your entire application package**\*, we will process it within 14-20 calendar days. You will receive a confirmation of your enrollment in the Pet Behavior Etiquette Class that you requested or you will be informed about alternative class dates. Unfortunately, you cannot begin your visits with any Furry Friends team until you have completed the Etiquette class and the Team Captain(s) of the team(s) you have chosen have accepted your request to join their team.

Furry Friends is hoping you choose to become one of the growing number of people who truly are making a difference in people's lives. Once you have completed the process of becoming a volunteer, your pet will become the bridge for you both to enhance your own relationship as well as giving a smile or happy tear for someone else who needs a lift in spirit. Thank you.

Sincerely,

Anne Tiry  
President

## We're Licking Loneliness!

## Frequently Asked Questions and Answers

### *How effective is pet assisted therapy ?*

Anyone who has ever owned a pet knows of the tremendous love and acceptance pets bring. Pets don't care how we look or even how we act; they love us unconditionally. For people who are in difficult life situations, pets can be of special benefit. Petting a dog, for instance, has been shown to lower blood pressure. Animals can often reach people when human relationships may be difficult. Scientific research has shown that interaction with animals can significantly improve humans' physical and emotional health. Put as simply as possible, pets make people feel good and they help healing happen. The people we and our pets visit have minimal positive experiences in their lives and our pet visits brighten their days.

### *How do we operate as an organization ?*

Pet Assisted Therapy Services, a registered Nonprofit California Corporation, is governed by its Board of Directors. All board meetings are open to the public. We are a 100% volunteer organization that basically facilitates the delivery of the love and affection of our volunteers and their pets. We enhance the lives and reopen the closed emotional doors of people with special needs. We provide umbrella insurance coverage, access to a trained Animal Behaviorist, and vitally needed support and encouragement to our volunteers.

### *How did Furry Friends get started ?*

Furry Friends was begun in 1983 by Judy Kell whose nine year-old daughter came down with a rare and usually fatal form of cancer. Judy noticed that one of the very few things that lifted her daughter's spirits was the interaction with her pets. When her daughter became well, Judy decided to bring pet visits to other people in need. Pet Assisted Therapy Services is an independent Non-Profit Organization that is based on the principles of pet facilitated therapy, a recognized and researched therapeutic technique.

### *Who supports Furry Friends ?*

We have received contributions from over 400 local donors and have received grants from a few major foundations and corporations, including Hewlett-Packard, IBM, Network General, the Community Foundation, the Valley Foundation, and others. In order for any nonprofit organization to survive, its primary source of support must be its individual donors. We do not receive any city, county, state or federal funding.

### *What can you do to support Furry Friends ?*

We need new volunteers as we have more sites waiting for pet visits than volunteers to fill the requests. We also are looking for qualified professionals that are interested in becoming Directors on the Board of Directors. Please fill out our volunteer registration form if you would like to help. We look to you, your friends, and your company for support.

**email:** [info@FurryFriends.org](mailto:info@FurryFriends.org)

*What types of pets can become Furry Friends ?*

The answer to this question depends on the site team that you wish to be on. All of our therapy sites accept dogs, cats, and bunny rabbits. However, some sites will allow or not allow animals like pigs, goats, llamas, and various reptiles. Please ask our office for detailed answers to this question. Unfortunately, California law will not allow us to allow ferrets on any of our therapy teams.

*Do I perform the visits on my own ?*

No. At the beginning of each visit, you will meet together as a team. You must check in with your Team Captain who is responsible and in charge of your visit. Depending on the therapy team that you are on, you will either stay together as a team or visit with patients one-on-one.

*How much of a time commitment must I make ?*

Each of the more than 50 Furry Friends teams visits each site once a month for approximately 1 hour. The time you commit to depends on the number of sites you volunteer for. PATS is an all volunteer organization, so from time to time we have special events that we may ask you to volunteer for. For example we participate in special events like San Jose's Bark In The Park Festival, new volunteer tables at local pet stores, and many types of fundraisers. However, these events are totally optional to our volunteers.

*What exactly is the volunteer screening process ?*

First, you must complete the attached paperwork and send it to our office. You will have to have your pet evaluated by a licensed Veterinarian to determine the health (must be current on all Furry Friends required vaccinations) and temperament of your pet to be confident that your pet is suitable for this type of activity. Secondly, you and your pet will have to attend a 90-minute Pet Behavior Etiquette class with a Furry Friends approved Class Administrator. Our Etiquette Class is designed and managed by Furry Friends' contracted Animal Behaviorist. In this class, you will learn what is appropriate and not appropriate animal behavior and how to control it. Additionally, you will learn tips in teaching your pet to be more loving to you as well as to the patients that you will be helping.

*What are the benefits of joining Furry Friends ?*

You will become closer to your pet in ways that may be difficult to see before joining our organization. Your furry friend will become socialized with people as well as other furry friends. He/She will become more comfortable in public places and you will feel great about the good work that you will be doing. Additionally, Furry Friends will provide access to a trained Animal Behaviorist that can assist you in reaching out to your pet to make your living together better for both of you.

*Does my pet have to have a CGC (Canine Good Citizenship) certification ?*

No. Furry Friends relies on both a veterinary and Animal Behaviorist evaluation of your pet. CGC certification is great to have but is not needed for Furry Friends.

Furry Friends Pet Assisted Therapy Services' mission is to consistently facilitate the delivery of the love and affection of our volunteers and their pets. We enhance the lives and reopen the closed emotional doors of people with special needs.

### Liability Release Form

(Each human volunteer must complete and sign this form)

I acknowledge that even though Furry Friends Pet Assisted Therapy Services (PATS) may carefully screen its animal therapists prior to accepting them into PATS, animal behavior is inherently unpredictable. Therefore, I do hereby release PATS from any and all liability or responsibility due to any injury or loss that either I or my pet(s) may incur as the result of, or arising in any way from, my participation in any PATS sanctioned visit to a visitation site or other function in promotion of PATS.

Furthermore, I understand that from time to time, photos will be taken of PATS volunteers and animal therapists while PATS visits are taking place. I do hereby give permission to PATS to publish and use for public relations purposes any photo taken of me and /or my pet(s), provided that any such photos are used for PATS promotional purposes only.

**FURRY FRIENDS  
PET ASSISTED THERAPY SERVICES  
VACCINATION POLICIES**

**Fecal Exams and Prevention Programs**

The only worm prevention programs accepted by Furry Friends PATS in lieu of annual fecal tests or deworming are Heartgard Plus (regular Heartgard is not accepted), Interceptor, Sentinel, Iverhart Max, and Advantage Multi. However, annual fecal tests are still encouraged (even if your pet is on one of these programs) by Furry Friends because there are other health problems that can be detected with these tests. A positive result for non-contagious parasites may not disqualify the animal.

Flea prevention programs such as REVOLUTION, ADVANTAGE, PROGRAM, FRONT LINE, BIOSPOT, etc. do not prevent or kill roundworms, hookworms, etc. These types of worms can lie dormant in fecal for weeks or even months. Note that regular Heartgard kills only heartworm larvae and will not be accepted.

**Distemper/Parvo or FVRCP**

Every dog or cat must be either vaccinated for this, or, if deemed appropriate by the animal's veterinarian, protective titers will be accepted.

**Rabies**

State law requires dogs and cats to be vaccinated against rabies, regardless of whether they are an indoor or outdoor pet. Titers will not be accepted for rabies.

**Hookbills**

Hookbills (parrots, parakeets, and cockatiels) can be used for PATS visits. These birds should be checked for Tuberculosis (TB) and have an elisa test for psittacosis. Although a fecal exam is not necessary, they are a valuable aid in maintaining healthy birds. Birds are not suggested for immuno-compromised clients unless there has been a bacterial culture on the choana and cloaca – found to be normal.

Furry Friends Pet Assisted Therapy Services' mission is to consistently facilitate the delivery of the love and affection of our volunteers and their pets. We enhance the lives and reopen the closed emotional doors of people with special needs.

# Veterinary Pet Evaluation Form

(To be completed and signed only by a Veterinarian)

Owner's Name: \_\_\_\_\_ Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

Pet's Name: \_\_\_\_\_ Pet's Age: \_\_\_\_\_ years old Weight of Pet: \_\_\_\_\_ lbs.

Breed of pet: \_\_\_\_\_ Species: \_\_\_\_\_ Sex: \_\_\_\_\_ Spayed or neutered ? \_\_\_\_\_

**Note to the Veterinary Professional:** You are being asked to perform a suitability evaluation of the pet above for work as a Pet Therapist. Furry Friends Pet Assisted Therapy Services acknowledges that animal behavior cannot be accurately predicted and thus holds you harmless from any legal liability from your observations and recommendations below. However, your professional opinion of the suitability of this animal for pet therapy work is vitally needed for Furry Friends and its animal behavior consultant(s) to have so we can better evaluate the suitability of this pet for therapy work. You must feel free to state your observations accurately below, as answers that look negative in nature may not (in themselves) disqualify this pet from service as additional behavior tests will be administered to this pet prior to admission to Furry Friends.

### **I. Approaching the pet:**

When you first approached the pet above, did he/she growl, raise his/her fur, bare teeth, or show any other exhibitions of aggression or defensive behavior ? *(yes or no with further observations if needed)*

### **II. Handling the pet:**

When handling (picking up in arms or laying fully or partially on lap) the pet, did he/she growl, raise his/her fur, bare teeth, or show any other exhibitions of aggression or defensive behavior ? Did he/she try to escape from you in a frantic manner ? *(yes or no with further observations if needed)*

### **III. Pain Threshold:**

Briefly and gently pinch the webbing between toes and pull the hair from his/her side and back. Did the pet growl, snap, bite, hiss, scratch, act fearful, or frantically try to escape from you after administering the above test ? *(yes or no with further observations if needed)*
